RE: Commercial Insurance
Insurer: Special Risk Insurance Managers
Policy #: SR004521
Policy Period: March 31, 2017 to March 31, 2018

Dear Earl & Judy:

The above noted policy providing coverage for your Inflatable Bounce Rental operations is coming due for renewal on March 31, 2018. The following is a brief summary of the coverage currently being provided:

- Miscellaneous Property (as per the attached schedule) \$ 90,000.
- Commercial General Liability 2,000,000.

Coverage is written on an all risk, actual cash value basis subject to a \$1,000 deductible.

In order to ensure that your policy is issued based on accurate information, we ask you to review your current policy and provide us with updates by completing the following:

| | |
|--|----|
| 1. Any changes in coverage, limits or operations: | |
| 2. Actual Gross Revenues for last year: | \$ |
| 3. Estimated Gross Revenues for the coming year: | \$ |
| 4. Any losses/claims or potential losses not reported: | |

We recommend adding cyber liability to your overall insurance coverage. While you may believe your business would never be the target of a cyber attack, consider that all data – even yours – has value to someone, that cyber attacks are, for the most part, random not targeted, and that small and medium sized businesses as a group are more vulnerable and, statistically, experience the highest percentage of cyber incidents. With no insurance in place, the cost of recovering from a cyber breach could put you out of business and your employees out of a job. We would be happy to review the importance of cyber coverage with you.

After reviewing the summary, along with the attached schedule, please ensure the coverage & limits remain adequate for your business operations and in the event of a loss.

Please note any questions you may have or any changes you may require. I shall contact you shortly to discuss and review the upcoming renewal further.

Sincerely,

Rogan Anderson, CAIB
